

GUIDELINES FOR SUBMITTING ADS IN Canadian Industrial Machinery®

HOW TO SUBMIT ARTWORK

FTP SUBMISSION:

We have created an FTP site for all FMAC Publications Ads. Please follow these guidelines:

FTP Access from a Mac:

Using the ftp software of your choice log on to:

Host: ftp.fmanet.org
User Name: ads
Password: fma

FTP Access from a PC:

Using Internet Explorer, log on to

ftp.fmanet.org
User Name: ads
Password: fma

Once you have logged on, please place your file in a folder labeled with your company name, publication, and month your ad will run. Please follow up with an email to your sales representative to ensure that your order will be processed as quickly as possible.

If you experience trouble using Internet Explorer 7...

1. Update your IE 7 browser settings — this only has to be done once.

Click on Tools, then Internet Options in your browser. In the Internet Options box click on the Advanced tab, and under the Browsing category click 'Enable FTP folder view'.

2. Go to ftp://ftp.fmafabtech.com

3. When the message "Internet Explorer cannot display the webpage" appears —

Go to the Page menu at the top of your browser and select 'Open FTP site in Windows Explorer'. This has to be done every time you visit the site.

4. Once you have done this, it will open up the FTP site and prompt you again for the user and password.

Another alternative is to simply open our FTP site in Windows Explorer and not use IE at all.
